5. Patient Testimonials

"I would highly recommend this place. I was so anxious about getting my wisdom tooth removed, having postponed it for years due to fear. But Dr. Hussein and the staff were incredibly calming and supportive. I honestly didn't even realize when the procedure was over. The care and comfort from the moment you walk in are amazing. Appointments are easy to get."
— Shweta Gupta

"I have been going to Trillium Dental for years. First with Dr. Shamji Sr., who was absolutely wonderful. Today I went for a filling in a molar that needed to be replaced. I am not good in a dentist chair; I am a gagger—a challenge for any dentist. Dr. Shamji was excellent, understanding, calm, and worked with my anxiety. His assistant Tina took time to put me at ease and was supportive. It made a huge difference. Many thanks to Dr. Shamji and his team, the staff at the front desk, and Laurie, the dental hygienist, for the great care over the years."
— Paula Verlegh

"Five stars simply isn't enough! I have had horrible dental anxiety for the past 20 years, and Dr. Shamji took that all away in a single appointment. He is so compassionate and understanding, especially when it comes to dealing with patients who have chronic pain. He explains everything he's going to do and makes sure you're comfortable at all times. I went in today for some cosmetic work, and I am absolutely in love with the results! It was such an easy procedure, and I'm looking forward to starting Invisalign in the near future."
— **Bek R.**
